DETAILED ACTION

1. 1-2, 9-10, 14-15, 19-20, 24-25, and 29-30 are pending.

Allowable Subject Matter

2. Claims 1-2, 9-10, 14-15, 19-20, 24-25, and 29-30 are allowed.

The following is an examiner's statement of reasons for allowance: The cited prior art, Yoshiura US Patent No. 6,157,720, Watney US Patent No. 5,930,398, and Zeng US Patent No. 6,505,299 teach methods of encryption and compression; however, the cited references fail to teach a decryption/encryption element supplying a content key to a decompression/compression element such that the content key is used in both the encryption and compression steps and wherein the decryption/encryption element and decompression/compression element are in close physical relationship by residing in the same physical address space on the computer system (see Applicant's remarks pages 2-3). As a result, the cited prior art fails to anticipate or render obvious the above cited claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
